ShowMax Engineering Headquarters  
The Czech Republic,  
Prague

Dear Sir/Madam,

**RE: APPLICATION FOR A JAVASCRIPT DEVELOPER POSITION**

My name is Synthia Hunter Achieng, currently pursuing a Diploma in IT at AkiraChix. I am writing to apply for a position as a JavaScript Developer at Showmax. I heard about this opportunity from looking through your site's website.

I have skills in Software Development and I am currently learning React.js and working on a website that would allow users to purchase household plants. I am also working on a team project where we build a payment gateway system for our school that leverages Bitcoin.

I admire the innovation done within Showmax to try and provide extra streaming services, unlike other existing streaming applications. Extra offers such as Supersport is an interesting technique that seeks to change the current cable.tv system to a digital one. If I get a chance to work for the company, I would improve my skills in Reactjs, Redux, and creating user interactive sites that are easily accessible by all.

I believe that working at Showmax will help me grow a lot, especially in my skill set. I look forward to hearing from you. In case of any inquiries feel free to reach me on my email address [achienghunter@gmail.com](mailto:achienghunter@gmail.com).

Sincerely,

Synthia Hunter Achieng
