Hello, I am Synthia Hunter Achieng
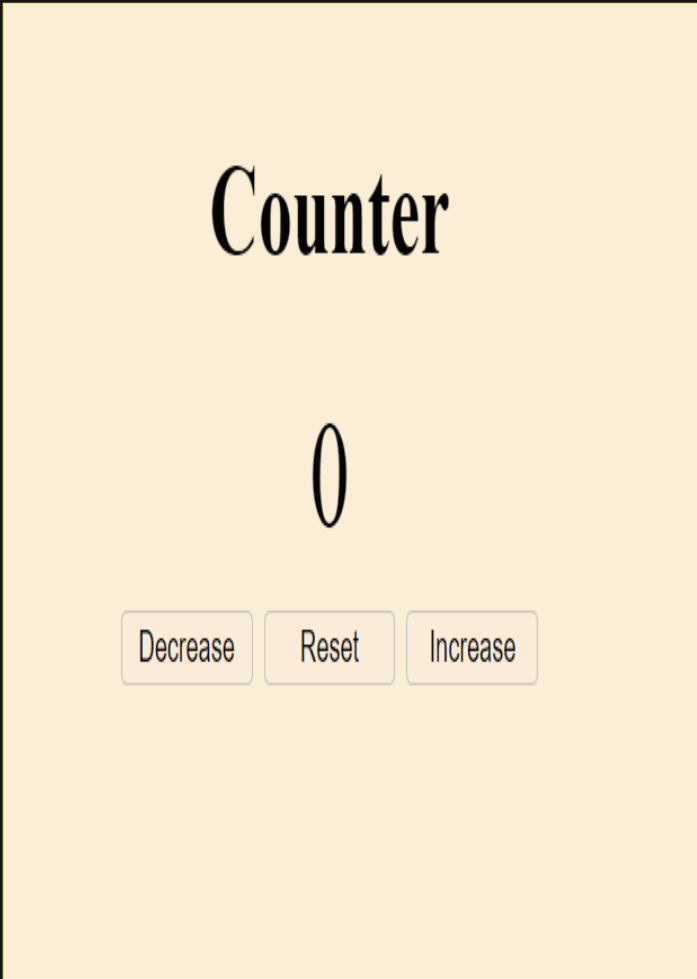

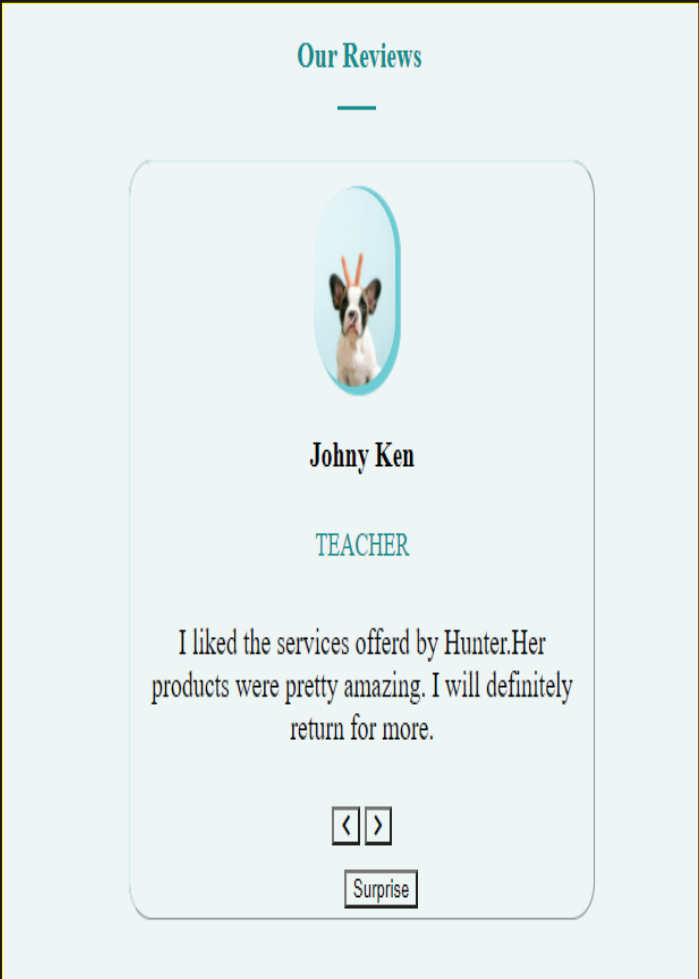

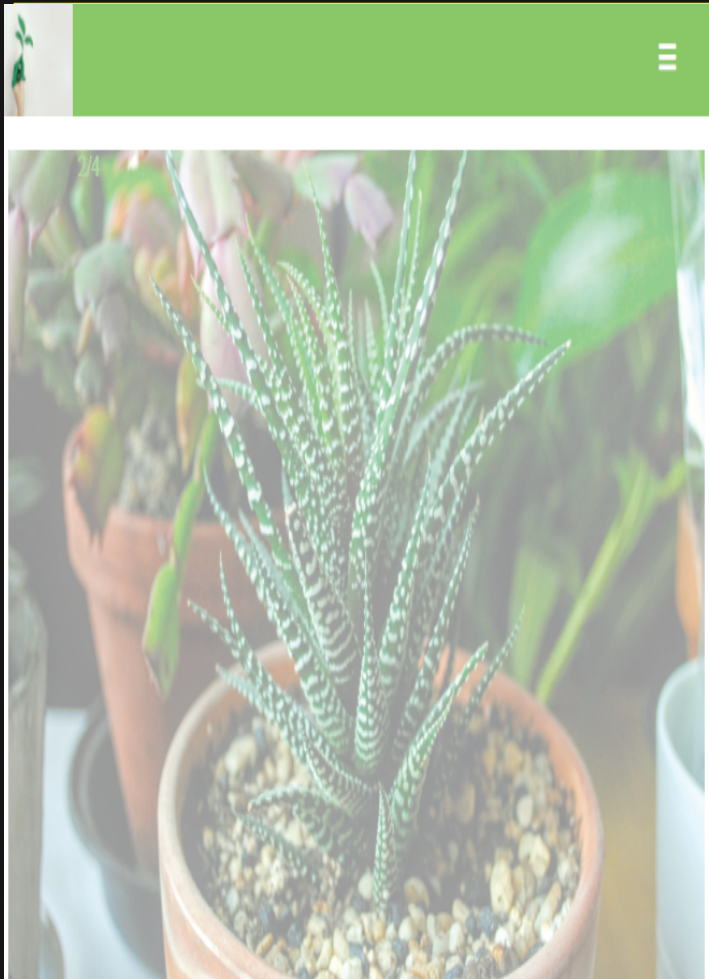

Software Engineer

my BIO

Hello, Iam Hunter Achieng, a Software Engineer in Nairobi,Kenya. I have always
been curious about the world. Why does this work like this? This has been
the question on my mind for years. This curiosity led me to pursue a career in tech
where I create the systems that were an anomalie during my childhood.
When I am not seated in-front of a computer, I am busy
learning new languages and searching for more 'How Its Made'
documentaries.
